A. Designation of Landmark Sites and Historic Districts

1. The City Council may by ordinance designate one or more areas containing a number of structures having special character or special historical, architectural, or aesthetic interest or value, and constituting distinct sections of the City, with the Historic Overlay Zone.
2. The Criteria For Designating Historic Zones specified in Appendix "A" of this ordinance shall be used as a guide in the evaluation and designation process.
3. Each designating ordinance shall include a description of the characteristics of the historical area which justify its designation, and a list of any particular features that should be preserved, and shall specify the location and boundaries of the historical area.
4. The property designated shall be subject to the controls and standards contained in this ordinance. In addition, the property shall be subject to such further controls and standards as the Council finds necessary or desirable, including, but not limited to facade, setback, and height controls.
5. The Council may amend or rescind a designation only by ordinance, after Planning Commission and Council hearings as required for original designations.

B. Initiation of Designation

Designation proceedings may be initiated by written application of the owner or owners of the property or by Resolution of the Planning Commission or the City Council.

C. Procedure

Except as otherwise provided in this section, the proceedings for Historical Overlay or H Zone are the same as for any other zoning of land.

D. Exclusion from Zone on Showing of Hardship

If any affected property owner presents facts clearly demonstrating to the satisfaction of the Planning Commission or the City Council that inclusion of his property in an Historical Overlay for H Zone will work immediate and substantial hardship, the Planning Commission or the City Council may exclude the property from the historical or H Zone.

Such equipment shall be subject, however, to design review procedures.

I. Showing of Hardship in Cases of Proposed Alterations or Construction

If the applicant presents facts clearly demonstrating to the satisfaction of the Planning Commission that failure to approve his application will work immediate and substantial hardship

because of conditions peculiar to the particular structure or other feature involved, and not created by an act of the owner, the Commission may approve the application even though it does not meet the standards set forth in either the enabling or designating ordinance. In this context, personal, family or financial difficulties, loss of prospective profits and neighboring violations are not justifiable hardships.

#### 609.1 MANUFACTURED HOMES ON INDIVIDUAL LOTS.

##### A. Intent

The City Council finds that over 75% of the vacant land designated for residential use in Blue Lake is located in the areas zoned Planned Development Residential, or PD-R, and that anticipated residential growth in Blue Lake will take place primarily in the said PD-R Zones. The City Council further finds that such growth is consistent with the policies of the Housing and Land Use Elements of the Blue Lake General Plan and will allow for flexibility and good planning in placing and assimilating manufactured housing. The City Council further finds that the residential areas of Blue Lake, other than those zoned PD-R, are substantially filled-in with housing of particular architectural types and historical significance so as to render lots to those areas incompatible with manufactured housing.

##### B. Manufactured Homes Permitted on Compatible Lots

A manufactured home shall be permitted on an individual lot as a single-family dwelling unit if, and only if, it meets the following eligibility requirements:

1. The manufactured home must be certified under the National Manufactured Housing Construction and Safety Standards Act of 1974.
2. The manufactured home shall have been constructed and certified not more than ten (10) years before date of application for the required installation permit or permits.
3. The manufactured home must be installed on a permanent foundation system designed in accordance with the provisions of Section 18551 of the Health and Safety Code and the City's current building standards and practices.
4. The manufactured home shall be subject to all development standards to which a conventional single-family residence on the same parcel would be subject (see Section 626).
5. The manufactured home must be owned by the property owner of record.
6. The manufactured home may be precluded in an area listed or proposed to be listed on the National Registry of Historic places consistent with Government Code Section 65851.3(b). (Amended by Ord. 399)

A. Location

Such pool shall be located on the rear part of a lot and in any case not less than fifty (50) feet from the front lot line. Side and rear yards shall be as required for accessory buildings, but in no case within five (5) feet of any lot line. Filter and heating systems shall not be located within ten (10) feet of any lot line. Except that portable pools shall not be required to maintain the 50-foot setback from the front lot line.

C. Enclosure

Such pool or the property on which it is located shall be completely enclosed by a wall or fence not less than six (6) feet in height, containing no openings greater than 4 inches except for self-closing and self-latching gates on which the latch is at least six (6) feet above ground level, in order that full control of access by children may be maintained. A. Front Yards

For the purpose of computing front yard dimensions, the measurement shall be taken

from the nearest point of the front wall of the building to the street line; provided, however, that if the official building line has been established for the street, or if a future width line is established therefor by the provisions of this ordinance, then the measurement shall be taken from the nearest point of the front wall to the other building to such official line or such future width line, except that certain architectural features hereinafter enumerated shall not be considered in making such measurements, and shall be subject to the following limitations:

Projections of canopies into streets from property lines, if they are along shopping frontages only, may extend to a maximum of 8 feet, provided that the height shall not be less than 10 feet from the ground to the canopies and provided that the overall design of the shopping facilities justifies such canopy in the judgement of the Planning Commission.

627. **RESIDENTIAL SECOND UNITS.** The purpose of this section is to provide a mechanism for allowing residential second units in certain residentially zoned districts, thereby providing the opportunity for the development of small housing units designed to meet the special housing needs of one-person and two-person households. Furthermore, the purpose of these provisions is to allow the more efficient use of the City's existing stock of dwellings, to provide housing units for family members who are elderly or disabled, to avoid parking problems in residential neighborhoods, and to protect property values and the single-family character of a neighborhood by insuring that second units are developed under such special conditions as may be appropriate to further the purpose of this section. This section implements the provisions of Government Code Sections 65852.1, 65852.150, and 65852.2.

D. Findings Required No special use permit for a residential second unit may be approved unless the City Planner first makes the following findings:

a. The second unit is compatible with the design of the main unit and the surrounding neighborhood in terms of landscaping, scale, height, length, width, bulk, lot coverage, and exterior treatment, and will not cause excessive noise, traffic, or other disturbances to the existing neighborhood or result in significantly adverse impacts on public services and resources.

702. An amendment may be initiated by one or more owners of property affected by the proposed amendment, as set out in the following section, or by action of the Planning Commission or the City Council.

703. The application of one or more property owners for the initiation of an amendment shall be filed in the office of the City Clerk on a form provided, and shall be accompanied by an accurate scale drawing of the site including contour lines, if amendment proposed is to change property from one zone to another, and other information as may be required to describe fully the proposed amendment. Fees must be paid in advance according to the City's current master fee schedule.

704. As soon as practicable following the filing of an initiation, or following the action of the Planning Commission, or of the City Council, taking into account the notice requirement of Section 705 of this ordinance, the matter shall be set for a public hearing before the Planning Commission.

705. Notice of the time and place of the hearing before the Planning Commission, including a general explanation of the matter to be considered and including a general explanation of the area affected, shall be given in accordance with Government Code Section 65854 and by posting in three (3) public places in the City of Blue Lake at least ten (10) days prior to the hearing, including one public place in the area directly affected by the proceeding.

706. At the public hearing, the Planning Commission shall hear any person affected by the proposed amendment. The hearing may be continued from time to time.

707. Within forty (40) days of the conclusion of the hearing, the Planning Commission shall submit to the City Council a written report of recommendations and reasons thereof.

708. Upon receipt of the written report of the Planning Commission, the City Council (at its next regular meeting) shall set the matter for a public hearing; provided, however, as set forth in the next section.

709. If the matter under consideration is an amendment to a zoning ordinance to change property from one zone to another, and the Planning Commission has recommended against the adoption of such amendment, the City Council shall not be required to take any further action thereon, unless an interested party shall request such a hearing by filing a written request with the Clerk of the City Council within 5 days after the Planning Commission files its recommendations with the City Council.

710. Notice of the time and place of the hearing before the City Council, and including a general explanation of the matter to be considered and including a general explanation of the area affected, shall be given in accordance with Government Code Section 65856 and by posting in three (3) public places in the City of Blue Lake at least ten (10) days prior to the hearing, including one public place in the area directly affected by the proceeding.

711. The City Council may approve, modify or disapprove the recommendation of the Planning Commission, provided, however, as set forth in Section 712.

712. Any modification of the proposed ordinance or amendment by the City Council shall first be referred to the Planning Commission for report and recommendation; but the Planning Commission is not required to hold a public hearing thereon. Failure of the Planning Commission to report within forty (40) days after the reference shall be deemed to be approval of the proposed modification.

713. Within forty (40) days of the conclusion of the hearing before the City Council, or within forty (40) days of the filing for the report by the Planning Commission with the City Council, or the expiration of the time for filing such report by the Planning Commission with the City Council, on any referral by the City Council as set forth in Section 712, the City Council may adopt the proposed ordinance or amendment. Failure of the City Council to adopt the proposed ordinance or amendment within the period set forth in this section shall be deemed to be denial of such proposed ordinance or amendment.

714. In the case of an application for combining a zone with a P-D Zone, the City Planning Commission may recommend the granting of the application as applied for in modified form only if, on the basis of the application and the evidence submitted, the Commission makes findings of fact that establish that the following circumstances apply.

A. The development as proposed in the plans and drawings accompanying the application will be consistent with the objectives of this chapter.

B. The proposed location of the planned unit development is consistent with the purposes of the zone in which the site is located.

C. The proposed development will comply with each of the applicable provisions of this chapter.

D. The development standards will produce an environment of sustained desirability and stability, harmonious with the character of the surrounding area and consistent with the objectives of the Blue Lake General Plan adopted by the City Council and subsequent amendments thereto, if any.

E. The combination of dwelling types, not sizes, and uses in the development will compliment each other and will harmonize with existing and proposed land uses in the vicinity.

715. In the case of an application for combining a zone with a P-D zone, the City council may affirm, reverse, or modify a decision of the Commission recommending the granting or denial of the application, provided that if a decision recommending denying the application is reversed by the Council or a decision recommending granting the application is modified by the Council, the Council shall make, on the basis of the application and the evidence submitted, the findings prerequisite to recommending the granting of an application prescribed in this article.

## VARIANCES

720. A variance from the strict application of the terms of these regulations, other than regulations directly pertaining to the use of land and buildings which are not existing nonconforming uses, may be granted upon the finding of either:

A. That any variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privilege, inconsistent with the limitations upon other properties in the vicinity, and zone in which the subject property is situated, and that because of special circumstances applicable to subject property, including size, shape, topography, location or surroundings, the strict application of the zoning regulations is found to deprive the subject property of privileges enjoyed by other properties in the vicinity and under identical zone classification; or

B. That any variance granted will not be contrary to the intent of the zoning regulations or to the public interest, safety, health and welfare, and, where due to special conditions or exceptional characteristics of such property, or its location or surroundings, a literal enforcement of the zoning regulations would result in practical difficulties or unnecessary hardships.

721. Application for a variance shall be filed in the office of the Director of Public Works, upon a form provided, and shall be accompanied by an accurate scale drawing of the site and any adjacent property affected and such other information as may be required to describe fully the proposed variance. Fees must be paid in advance according to the City's current master fee schedule.

722. Subject only to the rules regarding the placing of matters on the Planning Commission agenda, the matter shall be set for a public hearing.

723. Notice of the time and place of the hearing shall be given pursuant to Government Code Section 65091 and by posting in three (3) public places of the City of Blue Lake at least ten (10) days prior to the hearing, including one public place in the area directly affected by the proceeding.

724. At the public hearing, the Planning Commission shall hear any person affected by the proposed variance. The hearing may be continued from time to time, but shall be concluded within 60 days of the commencement thereof.

725. Following the conclusion of the hearing, the Planning Commission shall grant, conditionally grant, or deny the variance applied for. The grant of a variance may be made subject to terms and conditions attached thereto and made a part thereof. Appeals from actions of the Planning Commission shall be governed by Sections 760 through 765, inclusive, of this ordinance.

### USE PERMITS

730. Use permits may be granted, upon application to the Planning Commission for any use for which a use permit is permitted or required by these regulations, or for any use which, while not specifically enumerated in these regulations, is, in the opinion of the Planning Commission, similar to and compatible with the uses permitted in the zone in which the subject property is situated.

731. Application for a use permit shall be filed at the office of the Director of Public Works upon a form provided, and shall be accompanied by such information as may be required to describe fully the proposed use for which the permit is sought. Fees must be paid in advance according to the City's current master fee schedule.

732. The application shall be accompanied by an accurate scale drawing of the site and the surrounding area for a distance of at least 300 feet from each boundary of the site.

733. Subject only to the rules regarding the placing of matters on the Planning Commission agenda, the matter shall be set for a public hearing.

734. Such hearing shall be conducted, and notice thereof shall be given, in the same manner as a hearing upon an application for a variance.

735. The City Planning Commission shall make the following findings before granting a use permit:

A. That the proposed location of the conditional use is in accord with the objectives of Section 730 and the purposes of the zone in which the site is located.

B. That the proposed location of the conditional use and the conditions under which it would be operated or maintained will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity.

736. Following the conclusion of the hearing, the Planning Commission shall grant, conditionally grant, or deny the issuance of the use permit applied for. The granting of any use permit may be made subject to terms and conditions attached thereto and made a part thereof. Appeals from actions of the Planning Commission shall be governed by Sections 760 through 765, inclusive, of this ordinance.

737. If a decision of the Planning Commission denying a use permit is reversed on appeal, or a decision granting a use permit is modified on appeal, the City Council on the basis of the record transmitted by the Secretary and such additional evidence as may be submitted, shall make the findings requisite to the granting of such use permit.

738. A use permit granted pursuant to the provisions of this article shall run with the land and shall continue to be valid upon a change of ownership of the site or structure which was the subject of the use permit application.

#### REVOCATION OF VARIANCE AND USE PERMITS

750. In any case where a use permit or variance application has been granted by the Planning Commission, failure to commence the use in accordance with the approval within a period of one year, or abandonment of the use for a period of one year, shall result in the lapse of the approval, unless the applicant applies to the Planning Commission prior to the actual lapse of the approval, in which case an extension shall be granted by the Planning Commission for a period of one additional year, and if application is again made prior to the expiration of that one year, an extension may be granted for an additional one year upon showing of good cause. In any case where the terms and conditions of a grant of a variance or use permit are not complied with, the Planning Commission may give notice to the holder of such variance or use permit of its intention to revoke such variance or use permit. Proceedings for the revocation of a variance or a use permit shall be conducted in the same manner as proceeding for a grant of a variance or use permit.

#### APPEALS

760. The purpose of this section shall be to provide recourse in the event that an appellant is aggrieved by any order, requirement, permit, decision or determination made by an administrative official or by an administrative body in the administration or enforcement of this zoning ordinance.

761. All actions of the Blue Lake Planning Commission and any administrative official or body which regulate the use or uses which may be made of any parcel or parcels of real property in the City of Blue Lake, including, but not limited to, decisions approving, conditionally approving, or denying any variance, use permit, site plan, home occupation permit, or determining compatibility of non-specified principal permitted uses, shall be in writing, shall be signed by the commission, official, or body taking the action, and shall be filed with the City Clerk as soon as practicable following the taking of the action. Such writing may be in the form of a resolution, a certified copy of minutes, an endorsement upon an application, map, or drawing, or in such other form as may be

prescribed from time to time by the City Council. Such action shall be final ten (10) days following filing with the City Clerk unless an appeal is taken pursuant to Section 763. Any such action shall be taken not later than 364 days following the acceptance of the application for such action as complete; and in the event that no such action is taken within said 364-day period, said application shall be deemed to be denied and such denial filed with the City Clerk on the last day of such 364-day period.

762. Upon the filing of any action required to be in writing and filed with the City Clerk pursuant to Section 761, the City Clerk shall make a reasonable effort to notify the applicant or person whose parcel or parcels of real property are affected by such action at the address such person has most recently delivered to the City Clerk; provided, however, that such person has the primary responsibility of inquiring with the City Clerk to see if such action has been filed, and the failure of the City Clerk to give such notice shall not enlarge nor extend the period within which an appeal may be filed as set forth in Section 763.

763. Any person aggrieved by an action required to be in writing and filed with the City Clerk pursuant to Section 761, including the Director of Public Works, may appeal therefrom by filing a written notice of appeal with the City Clerk within ten (10) days following the filing of such action with the City Clerk, on a form prescribed by the City, and by paying an appeal fee at the time of filing such notice of appeal. The amount of the appeal fee shall be equal to the amount paid for the filing of the application for the action from which the appeal is taken; provided, however, that the appeal fee shall not be less than \$25.00, nor more than \$100.00; and provided further that the City Council may set a different appeal fee from time to time by resolution.

764. Unless otherwise provided by the City Council, all appeals shall be heard by the City Council. The City Clerk shall forthwith set a time and place for the appeal to be heard within thirty (30) days from and after the filing of the notice of appeal, or as soon thereafter as the matter can practicably be heard. The City Clerk shall immediately notify the custodian of records of the commission, official, or body from whose action and appeal has been taken of said appeal and request transmittal of pertinent records to the hearing body. Notice of the time and place of the hearing shall be given pursuant to Government Code Section 65091 and by posting in three (3) public places of the City of Blue Lake at least ten (10) days prior to the hearing, including one public place in the area directly affected by the proceeding.

765. At the time set for the hearing of the appeal, the appellant shall be given an opportunity to show cause on the grounds specified in the notice of appeal why the action appealed from should be modified or reversed. The body hearing the appeal may continue the hearing from time to time, and, unless otherwise provided by the City Council, its findings on the appeal shall be final and conclusive in the matter. The body hearing the appeal may reverse, affirm, wholly or partly, modify, or set aside the action from which the appeal was taken. The decision of the body hearing the appeal, including findings, if any, shall be in writing and shall be filed with the City Clerk. The City Clerk shall notify the appellant of such decision and shall make a copy of the decision available to the appellant upon request.

B. If any such use or building, after the effective date of the application of these regulations to the subject property is destroyed to the extent of sixty percent (60%) or more, then the subject property shall become subject to the regulations applicable to the subject property, and any subsequent use or buildings shall be in accordance with such regulations.

C. Any interruption of a nonconforming use, or the use of a nonconforming building which continues for six (6) months or more, shall be deemed to be an abandonment of such use, and subsequent use or buildings shall be in accordance with the regulations applicable to the subject property.

E. Any outdoor advertising sign or outdoor advertising structure which exists as a nonconforming use in any zone district after 1 January 1974 shall continue as provided for nonconforming uses in this section of this ordinance, except that every such sign or structure shall be removed within a period of five (5) years from and after 1 January 1974, notwithstanding any particular subsection of Section 770 of this ordinance to the contrary.

F. No such use shall be enlarged, increased or extended to occupy a greater area, nor shall the intensity of such use be increased.

G. Premises in or upon which a nonconforming use existed on the effective date of the application of these regulations to the subject property, shall not thereafter be utilized for a further nonconforming use of a different character or nature unless and until a use permit is obtained for such successive nonconforming use.

## 780. INVESTIGATION FEES: WORK WITHOUT A PERMIT.

### A. Investigation

for such work.

B. Fee

An investigation fee, in addition to the variance or permit fee, shall be collected whether or not a variance or permit is then or subsequently issued. The investigation fee shall be equal to the amount of the variance or permit fee required by this ordinance.
